Grid FWD 2024

Evolved energy markets for a modern grid

October 1-2, 2024
Banff, Alberta
Canada

Agenda

GridForward.org/GridFWD2024 | Presented by: GridForward

#GridFWD

Innovative grid policies, technology and practices to modernize markets

Market operators and participants alike are feeling it: current markets are not architected to meet the conflicting demands of progressive public policies, advancing energy technologies and unprecedented extremes in threats to the grid. The diverse community that is modernizing the grid across the western US and Canada needs to rally around new market models that can lower risk and uncertainty while improving resource adequacy, resiliency and equity.

Grid Forward invites market makers, participants and solution providers to a unique event tailored specifically to explore innovations in market models for states, regulators, TSOs and DSOs to build and operate the modern grid. We'll paint the whole picture, from increasing market integration to community engagement, from drivers of resiliency and reliability to new ways to harness data for forecasting and planning.

Stakeholders from our region and beyond gather at GridFWD

At GridFWD 2024, we will come together to share new and expanding opportunities to refine market structures and supporting technology and techniques to foster modernization. We invite all stakeholders to join us this fall:

- **Utility leaders and market operator experts—**Learn and share best practices for planning, building, and managing resilient, flexible and sustainable energy systems as markets evolve.
- **Executive and technical leaders of solution providers—**Join your customers and other stakeholders as we sketch out how technology makes modern markets more effective.
- **Regulators and government officers—**Share best practices from across North America and other advanced markets, and make connections with those on the front lines.
- **NGOs and advocates—**Build the knowledge base and relationships to influence new programs that promote clean energy, equity and economic activity on regional energy systems.

"GridFWD 2024 comes at an exciting time full of both challenges and opportunities for our industry. Our customers depend on us to help them navigate the energy transition and enable electrification to support their changing energy needs. The move from molecules to electrons is driving fundamental shifts in energy markets driven by regulatory constructs and climate and energy policies. Industry and government must work together to ensure our grid and systems are reliable, sustainable, and affordable for our customers."

– Mark Poweska, President & CEO, ENMAX

Meet the people defining tomorrow's energy markets. Confirmed speakers leading sessions and discussions at GridFWD 2024

Emeka Anyanwu
CEO,
Lincoln Electric

Astrid Atkinson
CEO & Co-founder,
Camus Energy

Nathan Neudorf
Alberta Minister of Affordability and Utilities

Mary Bernard
Supervisor, Residential Program Performance,
IESO

Francis Bradley
President & CEO,
Electricity Canada

Aaron Engen
President & CEO,
AESO

Peter Gregg
President & CEO,
Nova Scotia Power

Hanna Grene
Global GTM & Operations Leader for Energy, *Microsoft*

Adam Keech
Vice President - Market Design & Economics,
PJM

Maureen Kolla, PhD.
Project Lead, Alberta's Energy Future,
Energy Futures Lab

Elliot Mainzer
CEO,
CAISO

Shawntia McNeil
Energy Partner Ecosystem Manager, Global, *NVIDIA*

Lanny Nickell
Executive VP & CFO,
SPP

Mark Poweska
President & CEO,
ENMAX

Ravi Pradhan
Vice President of Technical Solutions,
Siemens

Julia Selker
Director of Policy and Strategy, Chief Operating Officer, *Grid Strategies*

Pam Sporberg
Director of Transmission & Market Services, *PGE*

Megan Vetula
VP Federal Regulatory Affairs, *Berkshire Hathaway*

Paul Wetherbee
Advisor, Regional Energy System Planning, *PNNL*

Audrey Zibelman
CEO, *Zibelmen Energy Advisors*

Register today Make your travel plans soon!

Don't miss these featured sessions

Developments in energy markets... and where they're headed with executives from CAISO, SPP and AESO

How grid operators are gearing up for market advances with executives from Nova Scotia Power, ENMAX and Electricity Canada

Get ready for the next steps in western energy markets with E3, Western Power Pool, Portland General Electric and EWEB

Working lunch: Best practices in mitigating wildfire threats with AltaLink, Banff National Park and Alberta Forestry and Parks

Plus a special First Nations welcome ceremony ... and introduction from Banff Mayor Corrie DiManno

Two full days of sessions, discussions and connections around energy markets

DAY 1: TUESDAY, OCTOBER 1ST			
7:00 AM	Registration, breakfast & networking in Vistas		
8:15 AM	**Opening plenary session with First Nation ceremonial blessing and Mayoral welcome** • *Aaron Engen, CEO, AESO* • *Elliot Mainzer, President and CEO, California ISO* • *Lanny Nickell, COO, Southwest Power Pool*		
9:00 AM	**Evolution of energy markets in the U.S. and Canada** • *Mary Weincke, Public Generating Pool* • *Adam Keech, PJM* • *Scott Bolton, Hydrostor* • *Irene Scruggs, NWCPUD, former General Counsel PPC*	**Leading the culture shift for the energy transition** • *Emeka Anyanwu, Lincoln Electric System* • *Michelle Vargo, Puget Sound Energy* • *Audrey Zibelman*	
10:00 AM	**Meters to markets: maximizing value for the customers** • *Alex Walmsley, RMI* • *Colin Gibbs, Sense* • *Hala El Saadi, EPCOR* • *Guillaume Paradis, Hydro Ottawa* • *Chris Johnson, Origin Energy*	**How to implement collaboration locally and at scale** • *Maureen Kolla, Energy Futures Lab* • *Chris Henderson, Indigenous Clean Energy* • *Bethany Frew, NREL*	Transition Today Case Studies on AI and edge resources (see page 7)
11:15 AM	Five huddle sessions (see page 6)		
12:00 PM	Networking Lunch in Vistas		
12:00 PM	Grid Innovation Pitch Contest preliminary round (see page 7)	Working Lunch: On the Edge of U.S. and Canada Federal Funding: How the Grid Edge is Driving Resilience & Reliability • *Larry Bekkedahl, Portland General* • *Marguerite Behringer, Landis+Gyr* • *Tim Weis, Natural Resources Canada* • *Hugo Perez, NERC*	
1:00 PM	Conference Connector Social Activities (In multiple locations on campus, see page 10 for descriptions)		
2:45 PM	**The steps to make beneficial electrification truly beneficial** • *David Morton, former chair BCUC* • *Bruce Chapman, Christensen & Assoc.* • *Tonja Leach, QUEST* • *Lakshmi Alagappan, E3* • *Elias Lyberogiannis, Toronto Hydro*	**Centralized transmission planning: the means to make markets more modern** • *Julia Selker, Grid Strategies* • *Christine Drake, MISO* • *Sarah Edmonds, Western Power Pool* • *Neil Millar, California ISO* • *Jordan White, GridLiance*	Transition Today Case Studies on AI and edge resources (see page 7)
3:45 PM	Five huddle sessions (see page 6)		
4:30 PM	**Utility transformation in a modern market** • *Mark Poweska, President & CEO, ENMAX* • *Francis Bradley, CEO, Electricity Canada* • *Peter Gregg, CEO, Nova Scotia Power*		
5:00 PM	Networking Reception and Social on the patio area outside the Kinnear Centre		

▶ Plenary and main sessions
▶ Networking and activities
▶ Transition Today case studies
▶ Huddle discussions
▶ Grid Innovation Pitch Contest
▶ Connector Activities

Find the topics, activities and experts to sharpen your knowledge of energy market evolution

DAY 2: WEDNESDAY, OCTOBER 2ND			
7:00 AM	Breakfast & networking in Vistas		
8:15 AM	Opening remarks by Nathan Neudorf, Alberta Minister of Affordability and Utilities		
8:30 AM	**Opening plenary session: Next steps for energy markets** • *Sarah Edmonds, President & CEO, Western Power Pool* • *Arne Olson, Senior Partner, E3* • *Pam Sporborg, Portland General* • *Megan Capper, Energy Resources Manager, EWEB*		
9:00 AM	**Very Positive Potential: How VPPs and markets work together** • *Brian Koolman, The Adhoc Group* • *Neil Veilleux, Uplight* • *Dominic May, La Plata Electric* • *Amaani Hamid, Kraken* • *Angela Long, Rockcress Consulting*	**Effective and efficient transitions to organized markets** • *Paul Wetherbee, PNNL* • *Ravi Pradhan, Siemens* • *Diane Brandt, Renewable Northwest* • *Kevin Dawson, AESO*	Transition Today Case Studies on AI and edge resources (see page 7)
10:15 AM	Five huddle discusions (see page 6)		
11:00 AM	Conference Connector Social Activities (In multiple locations on campus, see page 10 for descriptions)		
12:30 PM	Networking Lunch in Vistas		
12:30 PM	Grid Innovation Pitch Contest Finals (see page 7)	Working Lunch: Best practices in mitigating wildfire risk • *Gary Hart, AltaLink* • *Connor Woolis, Alberta Forestry and Parks* • *Jane Park, Banff National Park*	
1:30 PM	**The Next Frontier: AI at the Grid Edge** • *Marissa Hummon, Utilidata* • *Shawntia McNeil, NVIDIA* • *Marie Steele, NV Energy* • *Joe Glazer, Hubbell*	**Collaborating with customers to identify wildfire risks** • *Joe Rymer, PG&E* • *Jordan Folks, Opinion Dynamics*	
2:00		**Advanced surveillance and wildfire awareness** • *Adam Burley, Rogers Communications* • *Sonia Kastner, Pano.ai* • *Anne Sherwood, Xcel Energy*	Electricity Canada Working Group in Room 305
2:30 PM	**Closing plenary session**		
4:30 - 6:30 PM	Joint social hosted by Grid Forward and SGIN at the Three Bears restaurant in downtown Banff.		

▶ Plenary and main sessions
▶ Networking and activities
▶ Transition Today case studies
▶ Huddle discussions
▶ Grid Innovation Pitch Contest
▶ Connector Activities

"GridFWD 2024 is the premium utility event that brings together utilities, technology innovators, legislators and regulators in an intensive two-day discussion of the many issues facing the utility sector. GridFWD has been a must-attend event for me and anyone interested in exploring leading edge thinking about the electricity sector." ***— Mark Kolesar, former chair, Alberta Utilities Commission***

Bring your ideas and questions to the interactive huddle discussions

Smaller group format opens up information sharing

GridFWD 2024 huddle discussions are facilitiated by experts in each topic, but designed to make it easy to get to your most important questions. The event gives you three opportunities to jump in!

TUESDAY MORNING

Ensuring regional resource adequacy
• *Elaine Hart, Momentum Energy* • *Zach Ming, E3*

How to estimate, quantify and implement the value of resiliency investments
• *Erik Ela, EPRI* • *Tom Plant, Colorado PUC*

How new tech is defining the control room of the future
• *Abhinav Gupta, Grid Tranformation* • *Jill Searle, Nova Scotia Power*

Getting the most from interregional planning and development
• *Ahmed Maria, IESO* • *Barbara O'Neill, NREL*

Network flexibility: Applied learnings from Australia & the USA
• *Brendan Banfield, Gridsight* • *Zach Pollock, Xcel Energy*

TUESDAY AFTERNOON

What role will data centers play in energy markets?
• *Jim Taylor, Siemens* • *Hany Soliman, Microsoft*

Beyond FERC and NERC: The federal impact on energy markets
• *Megan Vetula, Berkshire Hathaway Energy* • *Catherine Doherty, Bloomberg NEF*
• *Karin Herzfield, FERC*

What nature can teach us about evolutionary models
• *Brad Nickel, EQUS*

From Pilot to Practical Application: Overcoming Barriers to GET Adoption
• *Tim Stelzer, LineVision* • *Chris Chapelsky, EPCOR*

Total grid orchestration and getting the most out of grid data
• *Audrey Zibelman* • *Obadiah Bartholomy, SMUD* • *Tom Eyford, Oracle*

WEDNESDAY MORNING

What are we learning from major market events?
• *Adam Keech, PJM*

When is a DSO really a DSO?
• *Hayden Reeves, PNNL* • *Hisham Omara, Alectra*

Tariffs vs. Programs vs. VPPs: How to best incentivize DERs?
• *Chris Sandbe, BC Hydro* • *Michael Blonsky, NREL*

The role of granular data transparency in utility decarbonization
• *Natalie Valentin, Granular Energy* • *Hallie Cramer and Neka Goka, Google*

Power plays: Electric and gas operators take on electrification
• *Ahmed Hanafy, Dunsky* • *Greg Robart, SGIN*

Transition Today case studies demonstrate how AI and edge resources are helping to open up energy market opportunities

THE ROLE OF RESOURCES AT THE EDGE	GETTING DATA RIGHT & THE PROMISE OF AI
Day 1: 10:00 AM — Scaling thermal flexibility in energy markets • *Scott Koehler, Armada Power*	**Day 1: 10:25 AM — Putting AI to work for grid reliability, sustainability and decision making** • *Matt Futch, Black & Veatch* • *Harneet Panesar, Ontario Energy Board*
Day 1: 2:45 PM — Shining light on how to improve solar interconnections • *Robert Deschamps, FortisAlberta* • *Lane Bozman, Clean Power Research*	**Day 1: 3:10 PM — AI, DERs, & FERC 2222: How might it all come together?** • *Astrid Atkinson, Camus* • *Alexina Jackson, AES*
Day 2: 9:00 AM — Building Canada's largest residential Virtual Power Plant in six months • *Mary Bernard, IESO* • *Sanjay Pai, EnergyHub*	**Day 2: 9:25 AM — AI and Digital for the Grid** • *Hanna Grene, Microsoft* • *Shiv Kumar, ENMAX*

Golf and casual social on Monday September 30

If you are arriving the day before the event, join us and other attendees at the stunning Banff Springs Golf Course. We are combining a casual opening social at the clubhouse with no-host golfing on the 9-hole Tunnel Mountain course. If you want to golf, click here to schedule a tee time between 11:45 and 12:35pm.

Golfing or not, drop in to say hi at the clubhouse from 2-4pm.

Grid FWD 2024

Attend the 2024 Grid Innovation Pitch Competition

This year's competitors showcase innovations across analytics and forecasting, virtual power plants, electric vehicle management, and resource modeling. Each company embodies the powerful theme of 'Unlocking Grid Potential and Removing Market Barriers,' making this year's competition more exciting than ever!

edo · FLIP · granular energy · GRIDLINK · Infinigrid · leaptran · MAPLEWELL ENERGY · Powerweave

These experts will be judges for the competition:

- **Luis D'Acosta**
  CEO of Uplight
- **Larry Bekkedahl**
  SVP Advanced Energy Delivery of Portland General Electric
- **Carolin Funk**
  Partner of Blue Bear Capital
- **Mark Hormann**
  Managing Partner of Accurant International

Delfire was the Grid Innovation Pitch Winner at GridFWD 2023 at the Columbia Gorge.

accurant international

Lead Pitch Competition Supporter

WHO WILL WIN
up to $50,000 of Business Advisory Services and up to $250,000 equity investment from Accurant International?

Catch the Excitement:

Preliminary round
12:00 PM, Tuesday
October 1

Final round
12:30 PM Wednesday
October 2

GridForward

A dynamic balance of presentation content and personal connection

Grid Forward is planning a range of sessions and activities over the two days to help attendees achieve their goals for rebuilding connections and driving new initiatives.

EXPERT PANELS AND CASE STUDIES:
GridFWD 2024 will play host to some of the leading experts in market structures and modernization from the U.S. and Canada, plus our dynamic Transformation Today case studies.

HUDDLE DISCUSSIONS:
With so many industry issues and opportunities, GridFWD 2024 will offer a wide range of small-group discussions for sharing best practices and answering questions.

INNOVATION PITCH CONTEST:
We will once again host our Grid Innovation Pitch Competition, with a special focus on technology as the foundation for modern markets. Competitors will vie in front of our audience for substantial awards.

HIGH-IMPACT ACTIVITIES AND TOURS:
Taking advantage of our unique location, GridFWD 2024 will feature numerous special activities to help forge stronger connections with event attendees.

SOCIALS & NETWORKING:
GridFWD events are planned for the maximum amount of connections and conversations, providing value for all attendees and a chance to relax and reflect on the intense amount of information available.

Grid Forward is committed to once again combining timely, relevant content along with structured ways to meet with connections new and old to build relationships with people that can help in your work.

'Conference Connector' activities bring our sponsors and attendees together

As we did in GridFWD 2023, Grid Forward is organizing sponsored activities during the course of the event that will inform, revitalize and connect our participants in ways unique to the region. **PARTICIPANTS MUST REGISTER** for these activities after registering. First come, first served, but we will try to accommodate all requests.

photo: Banff Convention Centre

FIRST NATIONS CULTURAL CIRCLE: DRUM, DANCE AND SONG

First nation cultural awareness and experience — Participants will learn about the different songs and dances used for different occasions (pow wow, ceremony, prayer), ask questions about the regalia worn by dancers, and have the opportunity to participate in a round dance. Max 40 people.

Sponsor: Electricity Canada / Électricité Canada

photo: Banff Convention Centre

THE MOUNTAINS, THE PEOPLE, THE STORIES

A walking history tour of the Banff region — Hear stories of First Nations People, the creators of Banff Park, early adventurers and more on this a 2.5 km round-trip with 100m elevation gain. Max 24 people.

Sponsor: Utilidata

photo: Banff Convention Centre

FORESTS, FIRE AND RESILIENCY STORIES

A guided talk and tour of the Banff Centre surroundings — In this inspiring walk around the beautiful campus, you'll see the dynamic of how trees in Banff have co-evolved with fire, with insights into what resilience means to the forests, to society and to you. Max 24 people.

Sponsors: SIEMENS, BOXPOWER

photo: Banff Convention Centre

DRAWN TO NATURE

Artist-facilitated drawing activity featuring Banff materials — Join an established Banff Centre artist as they lead participants through a drawing activity, featuring the iconic beauty of Banff. Using prepared and pre-designed materials, all participants will be able to produce a memorable take-away, regardless of art experience. Max 24 people.

Sponsor: . GRID TRANSFORMATION

photo: Yoshio Kohara, Panoramio

TUNNEL MOUNTAIN HIKE

A perfect all-season, introductory hike to the area — this shapely mountain whose Indigenous name translates to Sleeping Buffalo brings viewpoints of Mount Rundle, Fairmont Banff Springs and the Bow River. The 4.4 km hike is rated "moderately difficult," with 261m of elevation gain. Max 30 people.

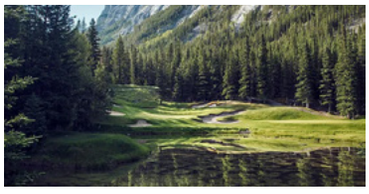

Sponsors: BLACK & VEATCH, NEXTera ENERGY

photo: White Mountain Adventures, Banff

E-BIKE TOUR OF TUNNEL MOUNTAIN TRAILS

Join a 90-minute tour through the picturesque trails system around the Tunnel Mountain reservoir. The group will accommodate different rider skill and fitness levels as it winds around Tunnel Mountain Reservoir and takes on mountain bike trails. Max 30 people.

Sponsor: sense

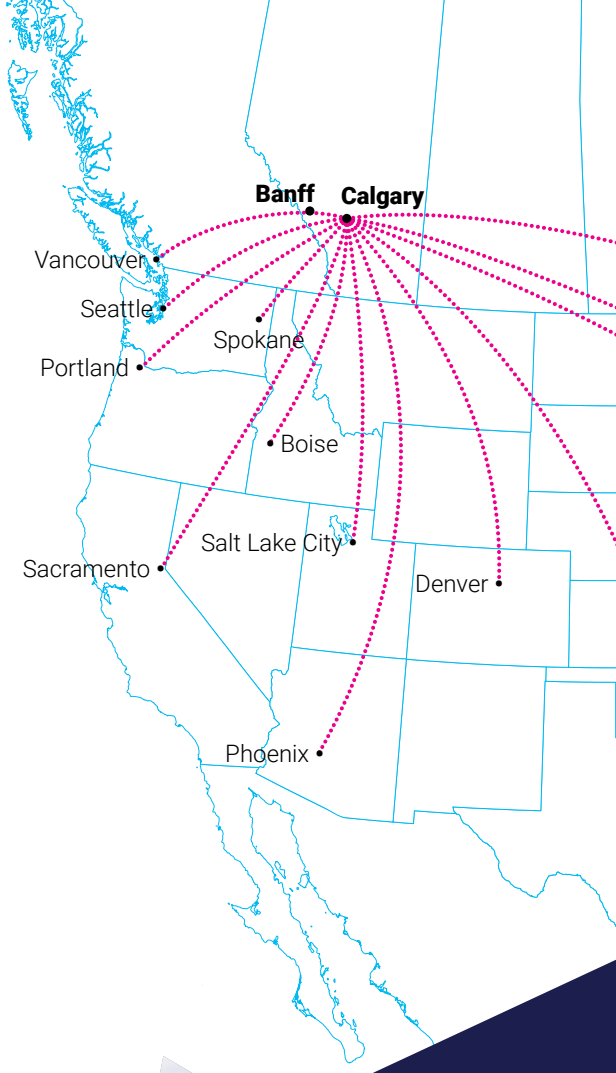

BANFF SPRINGS GOLF EXPERIENCE

Head over to the world famous Banff Springs Golf Course and sharpen your game with unique activities at the driving range and the putting and chipping facilities with course pros.

An inspiring locale for insights and relationships to tackle today's most urgent market challenges

Banff, the location for GridFWD 2024, will continue the intimate, distraction-free experience that made GridFWD 2023 so rewarding. Together, we'll explore the evolution of western markets toward a common trading structure that can help all parties embrace renewable power and overcome resiliency challenges from extreme events.

Far away from the day-to-day, but easy to get to

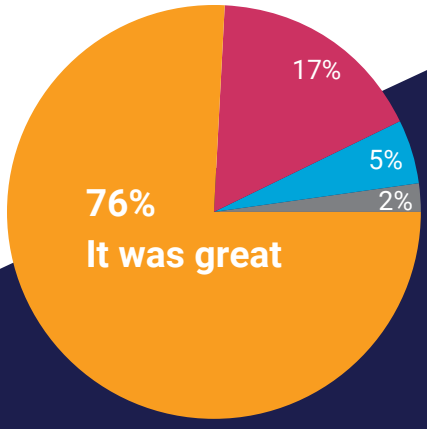

Calgary International Airport has regular flights from cities across Canada and U.S., just a couple of hours by air. Frequent shuttles navigate the 90-minute drive from the airport to Banff.

A conference locale like no other

GridFWD 2024 sessions and activities will take place at the Banff Centre for Arts and Creativity, one of Canada's most unconventional meeting venues. Hosting over 20,000 conference delegates from around the world every year, the Centre combines professional learning opportunities and breathtaking mountain vistas to create unforgettable experiences for all.

Attendees love destination venues

GridFWD 2023 survey respondents overwhelmingly appreciated having the event in a destination location outside of an urban setting.

76% - It was great
17% - It was good
5% - It was OK
2% - It was not good

Make your plans now.
Make your connections here.

Modern hotels and adventures high in the Rockies

GridFWD 2024 will take place in the Kinnear Centre, Banff Centre's newest meeting facility. Limited accommodations are available on campus primarily for sponsors and partners, and there are a host of hotels of all types within a 15 minute walk. Grid Forward will be running a shuttle between the main street and the venue for everyone's convenience. But, weather permitting, you'll want to stroll the streets of Banff.

Banff is a popular destination in the fall.
Make your reservations soon!

Event discounts to a variety of properties

Banff Lodging Company manages a range of hotels, suites and condos around Banff, including the charming Moose Hotel with its authentic Canadian hospitality. They are offering a 15% discount to GridFWD 2024 attendees who provide the discount code ***GF2024***. Click here to get started.

There are many other options not associated with the conference including the regal Fairmont Banff Springs, the ultra-modern Peaks Hotel, and the classic Banff Park Lodge Resort Hotel.

Transportation to and from the airport

Grid Forward has partnered with Banff Airporter for transportation to and from the Calgary International Airport. All GridFWD 2024 attendees can receive 15% off the cost by applying code ***GridFWD2024*** when booking at Banff Airporter.

If you drive, there is a fee for entering Banff National Park. Complimentary parking is available at Banff Centre and most Banff Lodging Company accommodations. There are two EV charging stations at the Banff Centre, and public charging in the town of Banff.

Pack for a mountain adventure

However you arrive and wherever you stay, plan to pack a variety of clothes.
Dry, wet, cool or warm: we will be in the Canadian Rockies in the fall!

Thanks to GridFWD 2024 sponsors

Sponsors: contact **MaryJo@GridForward.org** if you have any comments or questions.

Coinciding with Electricity Canada and Smart Grid Innovation Network events

GridFWD 2024 will coincide with two other important events in Banff. This is a great opportunity to make the best use of your travel time and create new relationships.

ELECTRICITY CANADA

Electricity Canada will hold its fall working meetings at the Banff Centre on October 2-3. GridFWD 2024 will have the opportunity to interact with their members.

SMART GRID INNOVATION NETWORK (SGIN)

SGIN will also be holding its Energy Innovation Forum Canada 2024 at the Moose Hotel & Suites in Banff on October 3. We invite SGIN members to register for GridFWD 2024 and join in the fun! Grid Forward and SGIN are cohosting a social event starting on day 2, October 2, from 4:30 to 6:30pm at the Three Bears Restaurant. Please RSVP if you plan to join us.

We thank our partner organizations for helping promote GridFWD 2024

Our thoughts are with the community of Jasper

Grid Forward is saddened by the damage to the community of Jasper caused by the wildfires in July. We will be making a donation to these charities to help Jasper recover, and invite you to do the same:

Jasper Fire Caring Community Fund

Red Cross 2024 Alberta Wildfires Appeal

Why take part in GridFWD 2024?

- There's never been a more important time to examine critical market dynamics and the challenges and opportunities for our energy systems
- Expert perspectives and guided discussions with market makers in Canada, the U.S. and beyond
- Presentations and case studies on new techniques and technologies for enabling market modernization
- Learn how peers are continuing to scale grid modernization across western U.S. and Canada
- Deep-dive small-group discussions
- Unique and rewarding networking opportunities
- Revitalizing community gathering in one of North America's most beautiful locales
